Thank you Kristine. If you can locate it then, I greatly would appreciate it. I do need it by the following week if that will be possible. Please let me know. It now appears, I may need to verify what was submitted as the Schedule of Documents as well, and will provide you additional information in the next few days. LeAnn

Koch.Kristine@epamail.epa.gov writes:

LeAnn - I am will not be able to look this up until Friday. I'll be out of the office until then. If your need is urgent, I could have my office staff check on this for me.

Subject: Portland Harbor Superfund Site - 104(e) Request/Response

---

Kristine: Apparently, I have an outdated telephone number for you. By letter dated June 28, 2008, The Marine Salvage Consortium, Inc. dba Fred Devine Diving & Salvage submitted a 104(e) response relating to the Portland Harbor Superfund Site. Recently, it has come to our attention that Devine would like to verify one of the attachments submitted in the response, in particular, what has been identified as Document No. 51 "Documents Relating to DEQ Stormwater Source Control Evaluation and Work Plan", consisting of 53 pages. EPA has not yet posted TMSCI's response. Can you assist me in retrieving a copy of this document? Thank you.
